Are your storage cabinets corrosive?

All of our storage cabinets meet OSHA and NFPA Code 30 regulations and have inner protection to avoid leaks and keep employees away from harm. Additionally, all corrosive storage cabinets come with galvanized steel shelves and are finished in blue corrosive-resistant urethane. Need help finding what you are looking for?

What are corrosive and acid storage cabinets?

These cabinets are designed to handle the most sensitive materials in work environments. Specialized leak-proof lining: Our corrosive and acid storage cabinets include specialized inner protection that controls leaks and keeps your employees and customers safe.

What are the features of a stainless steel cabinet?

The cabinet also includes a grounding attachment, leveling feet, and a three-point stainless steel bullet latching system, ensuring a secure and reliable door closure while enhancing resistance to heat and corrosion. The flush-mounted door handle comes with a key lock for added security.

Are battery cabinets NEMA & IP rated?

It is important to note that the NEMA and IP rating varies depending on where you will install the enclosure. A range of outdoor energy storage battery cabinets and outdoor lithium battery cabinets are available in standard and custom configurations, can be pole-mounted or ground-mounted.

LFP Battery Cabinet Modular design allows the system to scale out from 295 kW to 4.41 MWh. Fully equipped for rapid commissioning with support for truck transportation. Consistent quality ...
