What are the three main areas of ASEAN's connectivity plan?

The plan was adopted at the 17th ASEAN Summit in 2010 and focussed on three main areas: physical infrastructure development (i.e. physical connectivity), effective institutional arrangements (i.e. institutional connectivity), and empowered people (i.e. people-to-people connectivity) (ASEAN, 2011a).

Is the ASEAN telecommunication sector enabling policy and regulatory environment?

Across the ASEAN region, the enabling policy and regulatory environment for the telecommunication sector is slightly better developed compared to requirements for digital markets, which is in line with global trends.

What is the ASEAN connectivity strategic plan?

An inclusive and participatory process has been utilised in the design and development of the ASEAN Connectivity Strategic Plan and such an approach will continue to be used during implementation to ensure alignment of work plans, strengthen commitment to delivery, and address the needs and priorities of the region.

What does the ASEAN connectivity Coordinating Committee do?

The ASEAN Connectivity Coordinating Committee shall deepen and broaden engagements with Dialogue Partners and other external partners in developing connectivity initiatives that leverage on the core competencies of various partners. 20.

.
