AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, smart BMS, and thermal management, they're ideal ...

We specialize in designing and manufacturing high-performance energy storage systems, offering a wide range of battery cabinets and containerized solutions for commercial, industrial, renewable ...

Combines battery modules, PCS, EMS, and BMS in one cabinet for true plug-and-play installation. Supports multi-cabinet parallel connection for easy expansion and can include PV charging modules ...

Built with lithium-ion batteries, it offers longer performance and more cycles than VRLA batteries. With a fully loaded cabinet shipped to your location and no onsite wiring needed, it saves on deployment ...

The system has two operating modes: grid-connected and independent.

The SafeCubeA100A50PT Integrated Energy Storage Cabinet is equipped with 3.2V/100Ah lithium iron phosphate batteries, supporting a maximum energy storage capacity of 102kWh. The voltage range ...

Built with lithium-ion batteries, it offers longer performance and more cycles than VRLA batteries. With a fully loaded cabinet shipped to your location and no ...

Build an energy storage lithium battery platform to help achieve carbon neutrality.

The SafeCubeA100A50PT Integrated Energy Storage Cabinet is equipped with 3.2V/100Ah lithium iron phosphate batteries, supporting a maximum energy ...

Grid connected cabinets can connect energy storage systems (such as lithium-ion battery energy storage) to the power grid, achieving charging and discharging control of the energy storage system.
