NEWARE introduces charging and discharging equipment storage cabinets and battery racks with explosion-proof cabinets, designed specifically for safe storage and efficient management.

Validates safety performance of energy storage containers under real fire conditions by simulating: extreme thermal runaway propagation, explosion risks, and fire suppression system effectiveness.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency ...

An explosion this morning at Accurate Energetic Systems military munitions plant has left over a dozen people missing, with multiple fatalities reported.

Suitable for both on-grid and off-grid scenarios, our cabinets convert fluctuating energy prices into predictable costs, ensuring uninterrupted power supply for production lines even during grid outages, ...

In In this paper, the explosion-proof housing of hydraulic system power unit applied in engineering machinery is investigated, wherein the power unit includes motor, power supply and control element.

All 16 people inside the building that exploded at Accurate Energetic Systems are dead, Humphreys County Sheriff Chris Davis said at an Oct. 11 press conference. Residents from miles ...

Scientists at the Pacific Northwest National Laboratory developed this patent-pending deflagration prevention system for cabinet-style battery enclosures. Intellivent is designed to intelligently open ...

An explosion at a Pennsylvania metal fabricating plant injured four people during chemical transfer on Thursday night in Washington County.

Three firefighters were injured when a natural gas leak caused an explosion and fire at a New Hampshire mental health center, but the building's tenants and clients all evacuated safely.
