Although very rare, recent fires at energy storage facilities are prompting manufacturers and project developers to ask serious questions about ...

This Interpretation of Regulations (IR) clarifies specific code requirements relating to battery energy storage systems (BESS) consisting of prefabricated modular structures not on or inside a building for ...

The table below, which summarizes information from a 2019 Fire Protection Research Foundation (FPRF) report, "Sprinkler Protection Guidance for Lithium-Ion Based Energy Storage Systems," ...

The roadmap processes the findings and lessons learned from eight energy storage site evaluations and meetings with industry experts to build a comprehensive plan for safe BESS deployment.

The Ebba Battery Energy Storage System (BESS) facility would be constructed and operated as part of the proposed 300 MW Ebba Solar Project in Lincoln County, Colorado.

You're a project manager overseeing a 50MW battery storage facility. One Friday afternoon, your team reports unusual heat signatures in Battery Rack 7. What's your next move? ...

This webpage includes information from first responder and industry guidance as well as background information on battery energy storage systems (challenges & fires), BESS installation ...

How you arrange Battery Energy Storage System (BESS) units on a site can affect both the probability of fire spread and the ability to respond if an incident occurs.

The energy storage industry is committed to working with state and local officials to advance the latest safety standards and review certain energy storage facilities that predate NFPA 855 and take ...

This webpage includes information from first responder and industry guidance as well as background information on battery energy storage systems ...
