What is the Hainan free trade port?

The creation of a free trade port is the highest level of opening-up in the world today. With rich natural resources and the advantages of being backed by China's mega-market, the Hainan FTP covers the entirety of the 33,900-square-kilometer Hainan Island. The FTP currently has eight open ports and 10 second-line customs ports.

How many ports does the Hainan FTP have?

The FTP currently has eight open ports and 10 second-line customs ports. China aims to build the Hainan FTP into an important gateway that leads the country's opening-up in the new era.

How does Hainan FTP work?

The island-wide special customs operations in Hainan FTP, that began from Dec 18, are different from how the rest of China's general territory functions. Trade in Hainan operates through a dual-line system: the first line between Hainan and overseas markets, and the second between Hainan and China's mainland.
