A new report co-authored by WSU researchers concluded that Washington state could add solar panels to tens of thousands of acres of orchards and farms, making a significant dent in ...

A North Carolina orchard has rolled out an impressive renewable energy system, according to Solar Power World. Deal Orchards is a third-generation orchard based in the ...

In this comprehensive exploration, we'll delve into the fascinating world of agrivoltaic systems and how they're revolutionizing our orchards. Washington State University researchers are ...

Northern Orchard Solar PV is a hybrid resource consisting of 172.131 MW of transmission-connected solar PV paired with a 92 MW four-hour (or 73.6 MW 5-hour) lithium-ion battery ...

We design and install custom solar energy systems for homes and commercial properties throughout Port Orchard, Washington.

A North Carolina orchard has rolled out an impressive renewable energy system, according to Solar Power World. Deal Orchards is a third-generation orchard based in the Brushy ...

The dual-use demonstration site is being designed to provide strategic orchard shading to help reduce summer sunburn risks while also generating solar power for agriculture operations.

In this comprehensive exploration, we'll delve into the fascinating world of agrivoltaic systems and how they're revolutionizing our orchards. ...

Deal Orchards is the first orchard in the southeast to become an EcoCertified grower. Now the company can add generating 75% of its energy needs with on-site solar to its list of ...

Deal Orchards is the first orchard in the southeast to become an EcoCertified grower. Now the company can add generating 75% of its energy ...

Orchard solar power system
