What is a solar energy trailer?

Introducing our solar energy trailer, your portable solution for green energy needs. With simple setup, advanced sun-tracking, and a wide range of uses, it redefines power on the go. A single person can deploy the trailer in 10 (!) minutes, thanks to its telescopic mast that elevates solar panels to optimize space and exposure.

What is a high-capacity solar trailer?

A high-capacity solar trailer, like the SPOG Trailer, is an essential tool for natural disaster preparedness. Built with peace of mind in mind, it provides reliable, off-grid power to keep essential devices and appliances running during emergencies.

Why should you buy a solar trailer?

The intelligent tracking system ensures peak solar efficiency, with a backup generator for continuous power. Whether at large-scale events, remote outdoor activities, or critical emergency scenarios, this trailer delivers dependable, off-grid energy.

How tall is a solar trailer?

The solar trailer's driving height is just over 10'. With trailer pulling experience, this can be deployed by two people in less than 5 minutes, allowing you to get your powered trailer up and running rapidly and easily. Each Solar Platform can be customized to fit your specific needs.

Solar trailer equipped with 12 solar panels, conversion and batteries, transportable by light vehicles (such as SUVs or 4x4s) and commercial vehicles. The trailer can be used for electrification in ...

Spec out your Sun Titan from scratch and customize the system to your exact needs. Browse our preconfigured systems to find a Sun Titan that fits the job. Sun Titan trailers are designed and built in ...

By combining solar, advanced battery storage, and integrated fuel cell backup, they provide continuous, clean energy for mission-critical applications. Rugged, towable, and rapidly deployable, MOBISUN ...
