Data Center and Facility 3-Phase UPS High performance 3-Phase power protection for any size data center and other critical applications.

CyberPower 3-Phase Modular UPS Battery Cabinets are designed to accommodate several battery modules and can be configured into tower, side-by-side formations, or easily mounted in a rack.

Providing safe, reliable, high-power, the BlueRack(TM) 250 is designed to mate with all data center type 3-phase UPS manufacturers equipment, as well as numerous other critical power systems.

Highly efficient, scalable 200 to 500 kVA/kW 3-phase UPS featuring modular, redundant design and low TCO for medium and large data centers and mission ...

Whether for a large data center, medical facility or educational institution, the efficiency provided by the 93PM can play a vital role in any low maintenance, ten-year power solution.

Whether for a large data center, medical facility or educational institution, the efficiency provided by the 93PM can play a vital role in any low maintenance, ...

Highly efficient, scalable 200 to 500 kVA/kW 3-phase UPS featuring modular, redundant design and low TCO for medium and large data centers and mission critical environments.

The Schneider Electric™ exclusive Galaxy Lithium-ion Battery Cabinets for 3-phase UPSs are innovative energy storage solutions for data centers, industrial processes, and critical ...

CyberPower 3-Phase Modular UPS Battery Cabinets are designed to accommodate several battery modules and can be configured into tower, side-by-side formations, or easily mounted ...

Legrand offers universal battery cabinets for all three-phase Legrand Uninterruptible Power Supply (UPS) models ranging from 10kVA to 800kVA power output. They are designed to ...
